DETAILED ACTION

Election/Restrictions

1. Newly submitted claims 1-7 directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: The invention of amended claims 1-7 have a materially different design than that of the original claims 1-7 and 8-27. Amended claims 1-7 now recite that an air treatment apparatus comprises a cleaning element and a cleaning element moving mechanism as part of its structures wherein the cleaning element moving mechanism being operable to cause the cleaning element to move relative to the first electrode. While the claimed apparatus in the original claims comprises the recited means associated with the collector electrode for frictionally cleaning the emitter electrode when the collector electrode is moved relative to the housing (original claim 1, 8, 14, 28, 32 and 33) or the recited arm configured to operatively connect the cleaning element to the collector electrode to clean the emitter electrode during the movement of the collector electrode (claim 18).

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 1-7 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Allowable Subject Matter

2. Claims 8-27 are allowed.

3. The following is an examiner's statement of reasons for allowance: Because of the amendment and the submission of a terminal disclaimer on 26 September 2007 to obviate the rejection under the second paragraph of 35 USC 112 and the obviousness double patenting rejection, the previous rejections are no longer maintained.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any
